

Ohio's Children

Investing in them today will build the workforce of tomorrow

A skilled, productive workforce is essential for a strong Ohio economy. High-quality early childhood education (ECE) supports this workforce now and into the future.

Children in Ohio¹

- 2,578,019 children (under the age of 18) live in the state;
- 466,000 children (18 percent) live in poverty (about \$26,000 or less for a family of four);
- 38 percent of children live in a household with only one parent.

Early Childhood

- 69 percent of Ohio children under the age of 6 have both or their only parent in the workforce;²
- Only 14 percent of 3-year-olds and 26 percent of 4-year-olds are enrolled in state-funded pre-kindergarten, Head Start or a special education preschool program;³
- 39 percent of Ohio's population lives in a child care desert where there are more than three children under age 5 for every licensed child care slot.⁴ The lack of affordable, quality child care for just infants and toddlers costs Ohio an estimated \$1.7 billion annually.⁵

School Age

- More than half of Ohio fourth and eighth graders score below proficient in both math and reading on the National Assessment of Educational Progress (NAEP).⁶

18 percent of Ohio students do not graduate on time with a high school diploma.

College & Career Readiness

- 18 percent of Ohio students do not graduate on time with a high school diploma;⁷
- Graduation rates are worse for youth of color:⁸
 - 31 percent of African-American students do not graduate on time;
 - 27 percent of Hispanic students do not graduate on time.
- Of 2019 high school graduates in Ohio, only 23 percent met ACT College Readiness

Benchmarks in all core areas: English, reading, mathematics and science.⁹

High-quality ECE benefits the current workforce by allowing parents to focus on their jobs, secure in the knowledge that their children are in nurturing environments that support brain development and early learning. Research demonstrates that high quality ECE also bolsters academic outcomes that help develop the future workforce.¹⁰ Policymakers must continue to invest in quality ECE for Ohio's children.
