

CHAMPIONS FOR AMERICA'S FUTURE

COUNCIL FOR A STRONG AMERICA

Athletes and coaches promoting policy solutions for at-risk kids to compete in life

About Us

Founded in 2013, Champions for America's Future now boasts a roster that includes hundreds of prominent athletes, coaches, and sports leaders. Everyone who has joined the team aims to reach a common goal: to level the playing field for at-risk children in this country so they can compete successfully in life.

From skating legend Peggy Fleming, to Heisman trophy-winner Herschel Walker, to Coach K of Duke University basketball fame, Champion's members educate state and federal policymakers and the public about practices and policies that have a proven impact on preparing children to become smart, healthy, active, and productive citizens.

Our athletes, coaches, and sports leaders champion strategies that:

- **Make sure that America's kids are ready to learn.** From calling for high-quality preschool to lowering high school dropout rates, Champions for America's Future aims for all children to succeed academically.
- **Help parents be their kids' first coaches.** To prevent kids from falling through the cracks, Champions for America's Future supports proven, voluntary parent coaching programs.
- **Ensure America's kids are healthy.** Champions for America's Future fights childhood obesity by urging better school nutrition and physical education programs.
